

TABLES NOA SOLID

Designed by **David Carrasco Barceló**

DESCRIPTION

The NOA table is inspired by traditional tables made of metal and ceramic to create the separation between the top and the frame, but adopting simple and smooth shapes. Designed for an outdoor environment, the irregular slats that make up the envelope seek to break the monotony, giving a more fluid and timeless language to the whole. As a result, the work carried out using different technologies used for its manufacture and the final design, are combined in a robust and resistant structure but without neglecting contained and balanced proportions.

TABLES NOA SOLID

Table for indoor and outdoor use. Table top and legs injected in polypropylene. Fiber glass in the legs. UV protection. Available in 2 sizes.

TABLE FEATURES

- W** 90cm x **L** 160cm x **H** 74cm
